**RE: Approval, Administrative Closure of RCRA Permitted Treatment Unit MSSR01, Size Reduction Treatment 750 Pad and Building 440.**

Dear Mr. Legare and Ms. Lavorato:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the "Division") has received the *Closure Description Document (CDD)* for *Closure of the RCRA Permitted Treatment Unit MSSR01, Size Reduction Treatment 750 Pad and Building 440* in correspondence signed by DOE on April 18, 2005. The CDD is hereby approved for the MSSR01 treatment unit, specifically Perma-Con East, located in Tent 5 of the 750 Pad and Building 440, Rooms 123A&B.

The Division agrees that administrative closure, as described in State RCRA Permit CO-04-06-23-01, Permit Condition Part X.D.1.a, Clean Closure Option 1: Unit Review and Inspection, should be adequate. As acknowledged, Option 1 must be based on an Operating Record that indicates no releases occurred at any time during the operational period of the treatment unit on the 750 Pad, or were quickly mitigated, and by visual inspection. We understand, further, that treatment was never conducted in Building 440.

The CDD presents these as future activities; therefore, a closure summary report must be submitted as indicated. If you have any questions concerning this correspondence, please contact me at 303-692-3367 or Harlen Ainscough at 303-692-3337.

Sincerely,

Steven H. Gunderson  
RFCA Project Coordinator
